

FLYERS UNIVERSAL TRACTOR FLUID

Unique combination of ultimate equipment protection and environmental conservation.

PRODUCT DESCRIPTION

Flyers Universal Tractor Fluid is a high quality, multifunctional tractor hydraulic fluid, specially formulated for use in transmissions, final drives, wet brakes, and hydraulic systems of tractors and other equipment employing a common fluid reservoir.

FEATURES

Flyers Universal Tractor Fluid is formulated from premium base stocks and state of the art additive technology. It is designed for use in a variety of farm equipment, off-highway machinery, industrial tractors, final drives, power take-off units, wet brakes, power steering units and hydraulic systems.

The combination of special friction and shear-stable viscosity modifiers offers a supreme performance level. Flyers Universal Tractor Fluid is suitable for use in all major OEM equipment including, but not limited to Kubota, Oliver, Minneapolis-Moline, International Harvester, White Farm, John Deere, Deutz-Allis Chalmers, Ford-New Holland, J.I. Case and Massey Ferguson.

This new and improved fluid offers the convenience of using one tractor fluid in place of two or more fluids while maintaining optimum component performance and durability.

FLYERS UNIVERSAL TRACTOR FLUID TEST DATA

API Gravity @ 60°F	30.3
Lbs./Gallon	7.2
Viscosity, cPs @ 100°C	9.3
Viscosity, cPs @ 40°C	54.4
Viscosity Index	119
Pour Point, C°	-35
Flash Point, C°	218

CUSTOMER BENEFITS

Low operating costs — by meeting the performance of fluids supplied by equipment manufacturers, it helps in avoiding the cost of generally more expensive fluids.

Low inventory cost — one fluid does the job of a full range of mobile hydraulic systems. It can replace multiple products and free up shelf space too!

Minimal downtime — good compatibility with seals, O-rings, and packing materials maintains their good condition and keeps leakage at a minimum.

APPLICATIONS

Flyers Universal Tractor Fluid conserves irreplaceable petroleum resources and delivers performance equal to or greater than conventional product. It is recommended for use where the following performance specifications are required.

- John Deere— Quatrol, J20A, J20C, J21A, Hy-Gard J14B/C, Type 303
- John Deere— Quatrol, J20A, J20C, J21A, Hy-Gard J14B/C, Type 303
- Ford New Holland M2C86-A/B/C, M2C134-A/B/C/D, M2C43, M2C43, M2C53-A/B, M2C92-A
- Massey Ferguson M-1110, M-1127B, M-1129A, M-1135, M-1141
- J.I. Case—TFD (JIC-143/146), Hi-Vis (JIC-185), JIC-144/145, MS-1204, MS1205/1206/1207, MS 1210 (THC) and B-6
- Allis Chalmers—Power Fluid 821 XL
- International Harvester—Hy-Tran B-6
- Vickers I-2986-S
- Kubota Universal Transdraulic Fluid UTD
